THE HERALD.

JNO. P. BARRETT, - Editor.
CICERO T. SUTTON, - Associate Editor.

WEDNESDAY, FEB. 9, 1881.

We are in receipt of a communication from Centertown on the educational question which we are compelled to insert on account of its being written on both sides of the paper. The waste basket is the receptacle of all such letters. Bear this in mind.

PRESIDENT HAYES has refused to remove Mrs. Fitch, the postmaster at Covington. Some irregularities were discovered in her son's action while connected with the office, and she has made all delicts good, the powers that be cannot see anything to justify her removal.

THE Louisville and Nashville railroad company, says the Evansville Courier, have determined to bridge the Ohio at Henderson and build a line of road on the Indiana side up to Evansville, Ind., thus connecting their two divisions of the old St. L. and S. E. railroads. We are glad to learn this, for the old connection by transfer boat was slow and tedious.

SUIT has been brought in the United States Court against the Central Pacific railroad for money due the government. An injunction was granted by Judge Choate to restrain the company from paying the three per cent dividends to the stockholders on the first of February. The company filed bonds to the amount of \$750,000 to await the decision of the court.

BUTLER county was the third county in the State to settle with the Auditor for the revenue of 1880. This prompt payment is no doubt due in a great measure to the aid of Judge T. C. Carson, who has been connected with the sheriff's office of that county for some years past. Judge Carson is now a candidate for the Senate, and would no doubt make as good a Senator as himself.

THE census of 1880 shows that Warren, Campbell, Christian, Daviess, Fayette, Graves, Hardin, Henderson, Jefferson, Kenton, Logan, Madison, Mason, Pulaski and Warren are the only counties in the State having a total population greater than Ohio county; and only the counties of Campbell, Daviess, Graves, Hardin, Jefferson, Kenton, Pulaski and Warren have a larger white population.

JNO. C. S. BLACKBURN has a bill in Congress which he believes will check the absenteism which is becoming such a conspicuous characteristic of that body. His plan is to have the Clerk of the House to enter the name and number of times each member is absent at roll-call and have the same entered on the Congressional Record, and also published weekly. Good suggestion.

THE New York paper, *Truth*, is in another scrape. It is now trying to prove that Vice President-elect Arthur is not eligible to the office to which he is elected. It claims and avows that it has proof of the fact that Arthur is not a native of the United States. A. P. Hinman, a Wall street lawyer, is at work on the case. The mere fact that *Truth* has anything to do with it is sufficient to convince us that the whole thing is a hoax.

THOMAS CARLYLE, the great philosopher, author and poet, is no more. His grandspirit has flown, leaving a vacuum in the world of letters that can be filled by no man now known. His manner of writing and thinking was more intensely original than those of any other writer, and he never wrote a line that he did not firmly believe and that did not produce an effect in some way or other. His honesty was as great as his earnestness, and his whole life was devoted to the elevation of his fellow man.

WE have secured the services of Mr. Cicero T. Sutton to aid us in editing the *HERALD*. The duties had increased until it was impossible for us to properly discharge them all. We have had the valuable services of Mr. Sutton for a short time past, which had been quite visible to the reader, no doubt. He will henceforth devote nearly the whole of his time in the sanctum preparing brain food for our patrons. He is a young man specially adapted to the calling, and with his assistance we hazard nothing in promising our readers a better paper this year than we have ever yet furnished them.

SIGNER LOGAN, of Illinois, the originator of the bill to place Grant on the retired list of the army, at an enormous salary, deserves the contempt and condemnation of every fair-minded and honest man in public or private life. Grant has already received a vast amount of money from the Government that he was not entitled to, and this measure is little less and no better than a wholesale robbery. We had hoped, when Hayes and civil service reform was inaugurated, that the thieves would slink away to cover, but they are still abroad, and contemptuous among their schemes is the Grant pensioning bill of John A. Logan.

THE Presbyterian Mutual Assurance Fund, of Louisville, Ky., is a new candidate for favor presented to the readers of the *HERALD* this week. Read their advertisement and see their plan of business. While in Louisville recently we visited its Secretary's office and found from examination that during the first two years and ten months of the life of the society only seventeen deaths had occurred, all of which losses had been promptly settled. The society will have a local agent in Hartford soon, and those dealers can have a chance to become members. After an examination of the affairs of the company, we were well enough pleased to become a member.

ANOTHER Richmond is now in the field. We this week announce Judge Thomas C. Carson, of Butler county, a candidate for Senatorial honors. Judge Carson is a man of mature age, sound mind, large experience and unyielding in his adherence to what he considers to be the right. He served the people of his county very acceptably as County Judge for four years, and they now ask his promotion one step higher up the political stairway. A communication from leading citizens of his county published in this issue shows how he stands at home. His qualifications and claims merit a fair consideration from every voter.

As the time is near when the Democrats of the 8th Senatorial District will have to choose some one to represent them in the Senate for the next four years, and it being understood that our present very worthy and efficient Senator, Hon. J. G. Hartranft, will not run for reelection, it becomes the duty of the Democracy of the district to find a suitable and better for the ensuing contest in our district for Senatorial honors.

In the selection of a proper candidate qualifications to discharge the duties of the position should govern the choice, rather than a desire of a sum of claims of any kind to nominate the candidate. Were the latter to prevail, then surely Butler county ought to furnish the first six seats in the congressional delegation. The widow of Capt. Hugh N. Page, who was an officer in the navy before the war, he was a Virginian, and when his State needed he resigned his position and cast his fortunes with the sunny south. The amount asked for was for services rendered by him from the date of his sending in his resignation until it was accepted. The bill was promptly voted down, and the widow of the gallant Page, who was a soldier of 1812, is robust of the earnings of her dead husband. If this had been an appropriation of \$100,000 for some tangible corporation the bill would have been passed without trouble.

A GREAT row is being kicked up because Conkling wants a place in the Cabinet for some of his friends. Some of the Democratic newspapers are especially loud in the effort to prevent anything of the kind. For the life of us we can't see why they should kick. We have no ax to grind and can in no wise be benefited by this whole affair of Conkling. He undoubtedly has a right to recommend his friends for political preferment the same as any other man, and if his suggestions are not acted upon what will be the difference to the editors who are engaged in picking a man? And if they are? The world and this government will still move on. The universe does not hang on the word of Roscoe Conkling, although some people would have it seem so.

DO NOT blame the bondholders for the present condition of things. The National Banks can't help it. "The Chinese must go," yet they are in part of the cause. The Republican administration is not altogether responsible for it; neither is the tariff; nor yet the railroad. The bondholder is only employing a trifling confidence and respect of the people of his county, as one possessing an eminent record. He is a benevolent man and truly a gentleman, as he possesses in a high degree the confidence and respect of the people of his county. For the life of us we can't see why they should kick. He undoubtedly has a right to recommend his friends for political preferment the same as any other man, and if his suggestions are not acted upon what will be the difference to the editors who are engaged in picking a man? And if they are? The world and this government will still move on. The universe does not hang on the word of Roscoe Conkling, although some people would have it seem so.

DO NOT blame the bondholders for the present condition of things. The National Banks can't help it. "The Chinese must go," yet they are in part of the cause. The Republican administration is not altogether responsible for it; neither is the tariff; nor yet the railroad. The bondholder is only employing a trifling confidence and respect of the people of his county, as one possessing an eminent record. He is a benevolent man and truly a gentleman, as he possesses in a high degree the confidence and respect of the people of his county. For the life of us we can't see why they should kick. We have no ax to grind and can in no wise be benefited by this whole affair of Conkling. —In an interview between Prof. W. H. Hayward and Judge T. H. McBeath recently it was ascertained that all of the county officials of Grayson county, including the two district officers who reside in Grayson county, were former pupils of Prof. Hayward. The list is as follows: T. H. McBeath, Circuit Judge; W. H. Haynes, Commonwealth's Attorney; J. T. Gosnell, Circuit Clerk; Ed. O. Brown, County Clerk; James D. Hicklin, Sheriff; James S. Wortham, County Attorney; Harvey Bratcher, Assessor; James Taylor, Coroner. This is a remarkable showing and should be a source of congratulation to Prof. Hayward, who has seen many proofs of the energy infused by him into his students, which will develop itself, as shown in the instances given. Nearly all these gentlemen attended Prof. Hayward's school simultaneously, and now simultaneously hold positions of honor and trust. This we regard as a high tribute to the training given by Prof. Hayward to his pupils, and ought to commend him as one of the most successful educators of the age.

—In another column of this issue is an article from Dr. W. P. Bennett, of local station, in which he criticizes a local notice that appeared in the HERALD at the close of the recent protracted meeting at this place, conducted by Rev. W. B. Arlyn and himself. His comment or criticism would lead me to believe that we had not only misrepresented the facts, but were quite a shrewd oneself. Our statement was as follows: "The protracted meeting which has been in progress here for about two weeks closed Friday night, with but little success." We may suppose, however, after a meeting of two weeks, conducted by two able ministers, that one conversion and three or four admissions to the church was meeting with but little success. He says that "the most charitable conclusion in regard to this statement is, that the HERALD's local man, and concluded that we had not only misrepresented the facts, but were quite a shrewd oneself.
